Two whalers are off the port this morning, the Java and the Europa—both to sail to-day for the Arctic.

MEASLES IN PILE—A telegraphic dispatch reports that measles from the Fiji Islands state that the measles has broken out among the natives, and may result in deaths.

POTATO BUGS—Several of the European Governments have issued orders prohibiting the introduction of potatoes from the United States, on account of a potato-bug or beetle, called the Colorado bug. Our farmers should be free from disease and insects.

NEWSPAPER POSTAGE—Among the last acts of Congress was the passage of a law restoring the rate of postage on newspapers—one cent on each copy, instead of two cents for one cent. Our local newspapers weigh about 1½ ounces, so that the American postage on each paper will be two cents as formerly.

Now is the time to lay in a fresh stock for the store-room; and no housekeeper can have an excuse for furnishing "nothing to eat," after reading over the tempting lists of new groceries, which we see before them to-day. Just try those new eggs at May's; that Yarmouth sweet-corn at Fred and Laila's; or that delicious cheese at Mac's; and then thank our local for this paper's sign manual.

The Minister of the Penascola at the theatre, on Monday evening, was a great success. They have performed with great local interest of the ship import, and appear to have given much satisfaction to their audience. Their "Irish Comedians" and the "Heavenly Chorus" are done to perfection, and those who wish to enjoy a hearty laugh will not fail to attend.

HONOLULU, April 12th, 1875.
 To the Editor of the Gazette:
 Sir—I have no desire to "emphasize" my own work, but in justice to myself would like to offer a few words of explanation in connection with the criticism which appeared in the advertiser of last Saturday regarding the map of the Kahuku estate.

In the first place, I never saw any participation in the public exhibition; it was placed in the window of my shop without my knowledge or consent, and when the map passed out of my hands, I had no other thought than that I had heard and seen the last of it, and that its immediate destination was the residence of the proprietor—perhaps to be suspended from one of the walls of his farm house.

The plan was executed with much intent, and I have every reason to believe that I fully realized the wishes and expectations of that gentleman. I therefore did not fear the use of the Coast Survey Department before my eyes, in finishing and embellishing the plan according to my own (maybe defective) taste; but should I ever be favored with a commission from that department, I do not anticipate any great difficulty in executing it in conformity with their style or model. This somewhat pretentious critic, who, I am under the impression, is well known to me, is surely well of the mark in comparing the plan of a Ranch constructed under such circumstances for a private gentleman, with the coastal surveys of the U. S., or with the excellent plan of the Hawaiian estate, which latter is certainly all that he claims for it. He should also know of the accuracy of the lines or boundaries furnished by Mr. Gay, a well known and talented surveyor, and for which I have no doubt that gentlemen will willingly hold himself responsible. I trust any shortcomings of mine in portraying and finishing has not affected this first, most desirable, and important cut.

I have executed maps for and under the direction of the Chief Surveyor here, and have always received the unreserved approval, and whilst I am in the position of the confidence of the highest professional authority in this country, (and probably there are none superior to any other), I have no reason to fear the laws and scornful hyperbole hurled at me from the masked battery of the advertiser's hypercritical correspondent, whose contracted mind has been so deeply affected by the too generous commendation of my work by the press and many gentlemen well-qualified to judge.

I may add, that the most rigid search will not fail to discover my name upon any of the plans or maps I have executed in this country, and had it not been for the well-meant offices of the GAZETTE it would have remained—of its own accord—entirely anonymous or concealed—in its native obscurity.

Yours Respectfully,
 HENRY GILES.

[REMARKS—As stated by our correspondent, the map was exhibited, without the knowledge of the surveyor or draughtsman, and we were surprised to see that our contemporary could not allow attention being called to such a master-piece without attempting to throw discredit on a work which those who are competent to judge will at least admit is most admirably executed.—EDITOR.]

Handsome Furniture—We have seen a fine specimen of Cabinet work in the form of a centre-table, made by Mr. G. W. Brown, of Smith street. It made wholly out of island woods, and the number of pieces in it is about 400, of all shades and colors. We have suggested to Mr. B. that he prepare a table expressly for the Centennial Exposition, and it is now making arrangements to construct the choicest table ever got up in these parts. He requests us to solicit from parties on any of our islands, who have or can procure choice pieces of island woods, to send them to him or to Dolles & Co., stating the nature of the wood and the price. Pieces 18 inches in length and from 2 to 6 inches in diameter will be large enough. In this way the best material can be secured for a work which will reflect credit on Hawaii and her merchants.

ARRIVALS AT HAWAIIAN HOTEL:
